HERE'S THE FIX

How Familiar Guest helps

Everything Airbnb does for the booking — none of the things that frustrate you.

- ✓ **Keep your rate.** Pay just 5% per booking, or a flat \$29/month — never a 15% cut.
- ✓ **Own your guests.** A private guest list that's yours — with one-click re-invites timed to the winter season.
- ✓ **Get paid your way.** Take payment in dollars, Canadian dollars, or pesos — and get paid to a U.S., Canadian, or Mexican bank.
- ✓ **Trust built in.** Guest funds are held safely until check-in. Every owner is verified. Optional ID screening and up to \$1M damage protection.
- ✓ **Two languages, automatically.** Booking and messaging work in English and Spanish, with translation handled for you.
- ✓ **Run it from anywhere.** Give your local caretaker their own limited access, and let guests check in on their own.

 **The trust difference:** because we hold the payment in escrow until check-in, your guests can book a home in Mexico with total confidence — and you look as professional as any resort, under your own property's name.
