

Feature Catalog

All Familiar Guest features, grouped by type — plus gaps the grouping reveals

A complete inventory of every feature discussed so far, organized into functional groups. Grouping is deliberate: it surfaces the missing pieces each area needs. Use it as the master backlog and to drive scoping.

- CORE** Already defined/in scope from prior docs (positioning, product brief, solution design, compliance).
- NEW** Surfaced by this grouping exercise — proposed for consideration, not yet committed.

1 • Owner Registration & Onboarding

Feature	Status	Notes
Email magic-link signup	CORE	No passwords
Owner identity verification (Stripe KYC, Gate 1)	CORE	Required before listing/collecting
Property ownership verification (Gate 2)	CORE	Accepts fideicomiso/escritura (MX) + deed/tax doc (US)
Payout bank setup (US/CA/MX)	CORE	Via Stripe Connect
Tax forms — W-9 (US) / W-8BEN (non-US)	CORE	Compliance
Local STR-compliance attestation	CORE	Owner attests permits/registration
Owner profile & preferences (currency, language, payout)	NEW	Defaults that flow through the product
Onboarding progress checklist	NEW	Guides owner to "live"
Co-owner / multi-owner access	NEW	Compounds with multiple owners
Owner-to-owner referral	NEW	Growth loop

2 • Rental Unit Setup (in famguest)

Feature	Status	Notes
Listing creation form	CORE	Title, description, capacity, beds/baths
Photo upload (phone, cloud OAuth, drag-drop)	CORE	Owner-provided only (no scraping)
AI-written listing description	CORE	From owner text/prompts
GPS coordinates (required for Mexico)	CORE	Addresses unreliable; powers maps/directions
Amenities, house rules, capacity	NEW	Structured fields
Digital house manual (incl. Baja templates)	CORE	WiFi, codes, parking, local recs
Damage-deposit amount config	CORE	Per unit
Cancellation policy selection	NEW	Flexible/moderate/strict
Cleaning fee — fixed amount or per-day charge	NEW	Owner chooses the model; set in Owner Settings (group 18), per-unit override
Extra-guest fee & pet fee	NEW	Optional per-booking fees
Min/max nights, gaps, blackout dates	NEW	Availability rules
Unit-level tax settings (rates by jurisdiction)	NEW	Feeds tax accounting
Multi-unit / compound management	CORE	Many units, one account

3 • Calendar & Availability

Feature	Status	Notes
Inbound iCal import (Airbnb/VRBO/Booking.com/PMS)	CORE	Refreshed 15–30 min
Outbound .ics feed per listing	CORE	Others import it
"Last synced" timestamp	CORE	Sets expectations
Manual block / unblock dates	NEW	Owner control
Double-booking radar / conflict alerts	NEW	Turns iCal lag into a trust feature
Seasonal availability windows	NEW	Open only Nov–Apr, etc.

4 • Pricing, Promotions & Plans

Feature	Status	Notes
Plan tiers — PAYG 5% / Starter \$15 / Host \$29 / Pro \$49	CORE	All-features-on-all-plans
Add-ons — Guest Screening \$5, Protected Booking \$19.99	CORE	Per booking
Annual billing (~2 months free)	CORE	Retention/cash flow
Card + FX passed at cost; optional FX spread	CORE	FX spread = future revenue
Free-booking mechanic (\$5 friends/family)	CORE	Owner card on file
Promo code engine (%/fixed/free; expiry; usage limits)	NEW	Requested — different price tiers incl. free/comped
Owner-set guest discounts (returning, long-stay, last-minute)	NEW	Owner-controlled price tiers
Referral credits / account credit ledger	NEW	Powers referral + comps
Nightly/weekly/monthly & seasonal rate setup	NEW	Snowbird-friendly
Dynamic pricing suggestions	NEW	Future

5 • Booking Process (guest-facing)

Feature	Status	Notes
Branded private booking link, no guest account	CORE	Owner's property name
Availability calendar + date selection	CORE	Live availability
Transparent multi-currency price breakdown	CORE	USD/CAD/MXN
Rental agreement e-signed before payment	CORE	DocuSeal
Payment + escrow + damage deposit	CORE	Stripe
Split payments / installments	CORE	Deposit now, balance later
Booking confirmation + state machine	CORE	pending→signed→paid→confirmed
Instant-book vs request-to-book (owner approval)	NEW	Owner choice per unit/guest tier
Date-hold / quote window	NEW	For re-invites
Cancellation & refund flow	NEW	Tied to policy
Booking modification (date change)	NEW	Self-serve change

6 • Renter (Guest) Registration & Profile

Feature	Status	Notes
Book with no account (name + contact)	CORE	Low friction
Optional guest screening (Truvi)	CORE	ID + fraud
Guest consent / privacy notice capture (aviso de privacidad)	CORE	Compliance
Magic-link guest portal (booking, agreement, manual, messages)	NEW	View without an account
Guest trust tiers (vetted / returning / referral)	CORE	From CRM
Saved details for one-click rebook	NEW	Convenience

7 • Payments & Money Movement

Feature	Status	Notes
Stripe Connect (Custom)	CORE	FG never custodies funds
Escrow (delayed payout until check-in)	CORE	Core trust
Damage deposit hold + auto-release	CORE	Separate from rent
Multi-currency charge (USD/CAD/MXN)	CORE	
Cross-border payouts (US/CA/MX bank)	CORE	
Split payments / installments	CORE	
Card + FX at cost	CORE	
Refunds & partial refunds	NEW	
Security-deposit claim flow	NEW	Owner files claim against deposit
Chargeback / dispute handling	NEW	Ops + Stripe
Payout scheduling & statements	NEW	Owner clarity

8 • Trust, Safety & Verification

Feature	Status	Notes
Verified Owner badge (Stripe KYC)	CORE	Condition of payout
Escrow	CORE	
Guest screening (Truvi)	CORE	Add-on
Protected booking / up to \$1M damage	CORE	Add-on (Truvi)
Rental agreement (e-signed, stored)	CORE	
Property ownership verification	CORE	Gate 2
Payment fraud/risk screening (Stripe Radar)	NEW	
Guest "trust passport" / portable reputation	NEW	Future, network effect

9 • Language & Localization

Feature	Status	Notes
Bilingual booking page (EN/ES)	CORE	
AI-translated two-way messaging	CORE	
Multi-currency display	CORE	
Localized date/number/currency formats	NEW	
Localized legal docs (Spanish agreements, aviso)	CORE	Compliance
French (Canadian) option	NEW	Future

10 • Owner–Renter Communication

Feature	Status	Notes
Messaging thread (owner ↔ guest)	CORE	
AI translation in the thread	CORE	
Unified inbox across all units	NEW	Multi-unit owners
Saved templates / canned responses	NEW	
AI guest concierge (auto-answer from manual/listing)	NEW	Deflects Q&A
Broadcast to past guests (season re-invite)	CORE	

11 • Reminder & Check-in Automation

Feature	Status	Notes
Automated sequence (confirm→pre-arrival→check-in→mid-stay→checkout→deposit-release)	CORE	
Multi-channel: SMS / WhatsApp / email	CORE	Twilio + Resend
Google Maps GPS-directions link in check-in	CORE	Critical for MX
Check-in instructions / lockbox codes	CORE	
Configurable timing per message	NEW	Owner control
Smart-lock code generation/expiry	NEW	Future hardware
Post-checkout review request	NEW	Feeds reviews
Rebook nudge ("same dates next year")	CORE	

12 • Guest CRM & Retention

Feature	Status	Notes
Private guest directory (history, notes, prefs)	CORE	The moat
Trust tiers (vetted/returning/referral)	CORE	
Past-guest import (contacts/CSV)	CORE	Cold-start fix
Season-timed re-invite	CORE	
One-click rebook	CORE	
Referral system	CORE	

Owner-owned guest reviews	NEW	Private testimonials
Guest tags / segmentation + LTV	NEW	

13 • Revenue, Tax & Accounting

Feature	Status	Notes
Rental-income tracking (per booking, consolidated)	CORE	
Income summary (nights, occupancy, top guests)	CORE	
Consolidated multi-property reports (Pro)	CORE	
Lodging-tax handling (IVA/ISH/US TOT calc/collect/remit)	CORE	Where platform-of-record
Mexican host-tax withholding (ISR/IVA → SAT)	CORE	Counsel-gated
Documents for tax reporting (Schedule E, MX filings)	CORE	Handling, not advice
Guest receipts / booking invoices	NEW	Per booking
Mexican electronic invoice (CFDI / factura via SAT)	NEW	Often required for Mexican guests; needs SAT integration
Payout statements / financial ledger (CSV)	NEW	
Expense tracking (cleaning, fees) for net income	NEW	
1099-K visibility (US)	NEW	

14 • Owner Operations (Remote / Absentee)

Feature	Status	Notes
Caretaker / cleaner scoped role	CORE	No payments/guest list
Digital check-in (codes, lockbox)	CORE	
Cleaning schedule / turnover tasks	NEW	Beyond single caretaker
Maintenance log / vendor contacts	NEW	
Staff roles & permissions	NEW	

15 • Free Trial & Plan / Billing Management

Feature	Status	Notes
First-month-free trial	CORE	Subscription only; fees/add-ons still apply
Plan selection & upgrade/downgrade	NEW	Self-serve
Trial → paid conversion (card capture + reminders)	NEW	
Subscription management (cancel / pause)	NEW	Ops
Failed-payment dunning / retries	NEW	
Proration on plan changes	NEW	
Founding-owner / comp accounts	NEW	Ties to promo codes

16 • Admin, Operations & Monitoring

Feature	Status	Notes
Admin console (verification review, support, escalations)	CORE	
Monitoring + automated resolution (retry/resync/dunning)	CORE	
Nightly Stripe ↔ DB reconciliation	CORE	
Support ticketing + AI deflection	NEW	Keeps support sublinear
Audit log	NEW	
Feature flags / config	NEW	

17 • Compliance & Legal (cross-cutting)

Feature	Status	Notes
KYC / AML (via Stripe)	CORE	
Bilingual ToS / Privacy / Owner / Booking terms	CORE	
Multi-jurisdiction privacy (LFPDPPP/GDPR/CCPA/PIPEDA)	CORE	
Subprocessor list + DPAs	CORE	
Data retention / deletion (DSAR workflow)	NEW	
Consent management	NEW	

18 • Owner Settings & Site Parameters

A central **Settings page** where the owner configures policies and parameters once — with per-unit overrides where it makes sense.

Feature	Status	Notes
Central Owner Settings page	NEW	One place for all policies/parameters
Cleaning fee — fixed amount OR per-day charge	NEW	Owner picks the model; per-unit override
Extra-guest fee & pet fee	NEW	Optional per-booking
Damage-deposit default	CORE	Per-unit override
Check-in / check-out times	NEW	Drives messaging + house manual
Min/max nights, gap & blackout rules	NEW	Availability policy
Cancellation policy (flexible / moderate / strict)	NEW	Drives the refund flow
House rules & quiet hours	NEW	Shown to guest
Lodging-tax rates by jurisdiction	NEW	Feeds tax accounting
Default currency & payout preferences	NEW	
Instant-book vs request-to-book default	NEW	Per unit / guest tier
Guest discount rules (returning / long-stay / last-minute)	NEW	Owner-set price tiers
Message & notification preferences (channels, timing)	NEW	SMS/WhatsApp/email + quiet hours
Default language (EN/ES)	NEW	
Per-unit overrides of global settings	NEW	Compounds with varied units

19 • Notifications & Owner Alerts

Feature	Status	Notes
New-booking / payment-received / cancellation alerts	NEW	
Payout-sent notification	NEW	
New-message alert	NEW	
Calendar-conflict alert	NEW	Ties to double-booking radar
Channel preferences (email / SMS / WhatsApp)	NEW	
Daily / weekly digest	NEW	

20 • Account, Security & Data

Feature	Status	Notes
Account security (2FA, login alerts)	NEW	
Session / device management	NEW	
Owner data export (bookings, guests, financials)	NEW	
Account deletion / DSAR workflow	NEW	Compliance
Staff roles & permissions	NEW	Caretaker + future roles
Activity / audit log	NEW	

What this exercise surfaced (highest-value NEW items): a central **Owner Settings page** (policies + parameters, incl. cleaning fee as fixed or per-day), a **promo-code & discount engine** (your price-tiers-including-free requirement), a **refunds + deposit-claim flow**, a **guest portal**, **subscription/billing management** (trial→paid, cancel, dunning), **cancellation/modification** in booking, **owner notifications**, **invoicing/receipts incl. Mexican CFDI**, and **account security + data export/deletion**. These are the gaps to scope next for a fully functioning system.
